I am a driven fast learner looking to secure and maintain a position as a web designer/ front-end developer in which I can apply my self-taught skills in tandem with problem solving skills to create and deliver high quality user interfaces, websites, and web applications. I am able to function as part of a team or independently.

EXPERIENCE

2004 – PRESENT
CUSTOMER SUPPORT SPECIALIST, AT&T MOBILITY

- Address, troubleshoot, and resolve customer's issues with their mobile devices including but not limited to cellular service functionality, answering general device functionality questions, facilitating warranty exchanges as needed, and collaborating with device manufacturers.

2020– PRESENT
UI DESIGNER / FOUNDER, RODNEY WEB DESIGN

- Utilized self-taught skills in HTML and CSS to craft fully responsive websites.
- Implemented SASS to facilitate faster development and to create more maintainable style sheets in CSS
- Implemented Bootstrap to facilitate faster development and to utilize its library of components
